

# Sam Carter

**Sam Carter** is the Sales and Marketing Director at Orenco Systems® Inc. Sam started at Orenco in April 2001, but his experience with the onsite industry and Orenco products goes back to 1999. After graduating with a bachelor's degree in crop and soil science from Oregon State University, Sam worked as a sanitarian for the Linn County (Oregon) onsite wastewater division. He issued permits for septic systems, performed site evaluations, and conducted inspections for the county, while also becoming familiar with Orenco's treatment packages and control panels.

When he joined Orenco, Sam served as a sales representative for two years, handling orders and inquiries. In 2003, he set up Orenco's Government Relations department and then served as the company's Government Relations Manager for nine years. Following that, Sam became Orenco's Treatment Systems Products Manager, where he was responsible for identifying market focus areas for residential and commercial treatment systems. He was promoted to his current position in 2013.
